Regular graduates who have continued their studies for two years after graduating, and who have practiced their profession for two full annual terms* in the Common Schools of this State, on presenting to the Faculty and the Board of Examiners a certificate of good moral character, and skill in the Art of Teaching, from the Board or Boards of Directors in whose employ they have taught, countersigned by the County Superintendent, may receive second diploma, constituting them Masters in the several studies embraced in the course in which they graduated, and conferring upon them the corresponding professional degrees:

Teacher of Elementary Didactics.

Teacher of Scientific Didactics.

The Normal School Law makes it the duty of the State Board of Examiners to grant Diplomas or State Certificates to actual teachers of Common Schools, without their having attended the Normal Schools as students, upon the following conditions:

1. The applicant must be twenty-one years of age, of good moral character, and must have taught successfully during three consecutive terms, in Common Schools of this State. The proof of good moral character and of satisfactory teaching for the requisite term must be a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. The examination may be in either the Elementary or the Scientific Course as the applicant may select, according to the list of studies as printed in the circulars of the State Normal Schools, and approved by the State Superintendents; or in such other studies as may, by the Board of Examiners, be deemed equivalent.

*An annual term must be at least five months.

3. Each applicant is required to prepare and present to the State Board of Examiners an original thesis, of not less than six folio pages of manuscript, on some professional subject, which thesis is to be retained at the school where the examination takes place.

4. The examination and certificate are without expense to the applicant, and the certificate is full evidence of qualification to teach the branches therein named, in any part of the State, without further examination.

5. Practical teachers, attending examinations at State Normal Schools for the purpose of securing State Certificates, are examined separately from the regular students; and both the State Board of Examiners and the Faculty of the School at which the examination is held, take part in the examination, all being required to sign the certificate.

EXPENSES.

Tuition in all branches, including Book-keeping, Drawing, Penmanship, Vocal Music and Board, including fuel, oil, room-rent, and ordinary washing, \$63.00 per term, or \$189.00 per year.

The first payment, \$40.00, to be made on the first day of the term; the second payment, \$23.00, to be made at the middle of the term.

No deduction is made for absence of less than three weeks, and then only in case of sickness.

The total expenses per year are \$189.00. When students avail themselves of State Appropriation, the expenses are reduced for the Junior year to \$168.00, and in case of Soldiers' Orphans, to \$147.00.

For the Senior Year the expenses are reduced to \$118.00, and, in case of Soldiers' Orphans, to \$98.

Tuition without board, including all branches above, \$14.00 per term, or \$42.00 per year. The first payment, \$8.00, to be made the first day of the term; the second payment, \$6.00, to be made the middle of the term. No deduction for absence of less than half a term.

For two days at the opening, and two at the close of each term, students' baggage is carried to and from the railway station free of charge.

All baggage should be distinctly marked with the name of the owner, and "STATE NORMAL SCHOOL," to insure its being brought to the Normal buildings. Whenever baggage is to be taken to the station, it should be marked with the name and destination of the owner.

Produce, limited by the wants of the Institution, will be taken in payment for board, whenever patrons prefer to make payments in this way.

The ordinary text books are rented to students.

All students, except those living with parents or guardians, are required to board in the Institution, unless specially excused by the Trustees.

All bills must be settled with the Treasurer.

STATE APPROPRIATIONS.

By an Act of the Legislature, the following appropriations are made by the State to Normal Students and Normal Graduates:

1. Each student over seventeen years of age, who shall sign a paper declaring his intention to teach in the Common Schools of the State, shall receive Fifty Cents per week.

2. Each student who has been disabled in the military or naval service of the United States, or of Pennsylvania, or whose father lost his life in said service, and who shall sign an agreement as above, shall receive the sum of One Dollar per week.

3. Each student, who, upon graduating, shall sign an agreement to teach in the Common Schools of the State two full school years, shall receive the sum of Fifty Dollars.

4. Any student, to secure these benefits, must attend the School at least twelve consecutive weeks. The State appropriation is to be deducted from the regular expenses of students for board and tuition.

MISCELLANEOUS.

Before students are graduated they are required to write a thesis upon some educational subject.

No person can be graduated from a Pennsylvania Normal School who has not attended the school at least one-half a school year.

Applications for second diplomas must be presented to the Board of Examiners at the regular annual examination of the school.

CABINET.

There are now more than 6,000 specimens in the Cabinet. The Foster collection of Minerals, of over 2,500 specimens. The Smithsonian collection. The Conchological collection. The Eyster and Fradenburg collections, all of which afford students good facilities for scientific investigation.

APPARATUS.

The Philosophical and Chemical apparatus is sufficient to afford students the opportunity to perform most of the experiments necessary to develop the principles of sciences pursued.

NORMAL LITERARY AND ATHENAEAN SOCIETIES.

These are Literary societies, composed of the students of the Normal School. They have small but select libraries. Literary exercises are held weekly, and each society gives an annual literary entertainment.

Both societies are in a flourishing condition, and have each beautiful and well-furnished rooms.

ATTRACTIONS OF OUR TOWN.

It is conceded by all who are acquainted with Mansfield, that it is one of the most moral and cultured towns in Pennsylvania. The citizens are noted for their sobriety, intelligence and enterprise.

There is not a town in the State where the young are less exposed to the influences of vice and immorality than here.

By special Act of the Legislature no intoxicating liquors can be sold, or billiard tables kept, within a radius of two miles of this Institution.

The healthfulness of the place is excellent, and the scenery and beauty of surroundings unsurpassed.

These are desirable features and will be a great inducement for parents to send their children to Mansfield State Normal School, where their moral and intellectual wants will be equally well cared for.

The Soldiers' Orphan School is located here.

TEXT BOOKS.

Lists of Text Books used during the course will be furnished on application to the Principal.

GOVERNMENT.

The Government of the School is based upon the principle: "Do right because it is right." The positive regulations adopted are based upon the following principles:

FIRST.—*No student should be allowed to trespass upon the rights and privileges of another.*

SECOND.—*Privileges that all cannot enjoy should be granted to none.*

RELIGIOUS PRIVILEGES.

The churches of Mansfield are Methodist, Baptist, Episcopal, Universalist and Presbyterian. Sunday morning Bible Class, and Sunday and Wednesday evening prayer meetings are held in the Chapel of the Institution.

LOCATION.

Mansfield is a beautiful village of about 2,000 inhabitants, situated on the Tioga and Elmira State Line Railroad, thirty-five miles from Elmira, N. Y., and ten miles from Blossburg, and on the Troy and Wellsboro Stage Line, sixteen miles from Troy and twelve miles from Wellsboro. Students coming via the Northern Central Railroad, take stage from either Roaring Branch or Troy, or railroad from Elmira, N. Y. Those coming by Lehigh Valley Railroad, change cars at Elmira. Those coming by the Erie Railroad from the West, change cars at Corning, or Elmira, N. Y., and from the East, at Elmira.

BUILDINGS AND FIXTURES.

The South building is of brick, one hundred and fifty feet in length by fifty feet in width. The North building, also of brick, is situated one hundred and fifty feet North, and the same distance East, of the South building. It is one hundred and fifty feet in length and four stories in height. The rooms for students are large, with extra height of ceiling. The buildings, grounds and furniture cost over one hundred and twenty-five thousand dollars. The boarding hall, which is in the North building, is so arranged that students are grouped in families of ten at the tables, pupils of both sexes being seated around each table. The grouping is made with distinct reference to the cultivation of social habits and rules of good society.

THE NEW BUILDING.

There is now, midway between the two structures, a new building fifty-four by one hundred and seventeen feet, three stories high, which contains Model School Rooms, Society Rooms, Recitation Rooms, and a capacious Chapel, one hundred and eight by fifty-four feet. This building is completed and ready for use. It is well equipped with all modern improvements.

APPLICATIONS FOR TEACHERS.

Principals of Academies, Seminaries, and Directors of Common Schools will, whenever practicable, be furnished with good teachers, upon application at this Institution; but officers must not suppose that all persons who attend a Normal School three to six months, are thereby made good teachers.

THE KIND OF STUDENTS WE WANT.

It is the determination to make this Institution a place where students are taught correct moral principles, and where thoroughness and steady progress are prominent features. Therefore we desire students only who come to us with the following definite purposes:

FIRST.—*To make school studies their chief business.*

SECOND.—*To give their whole time and energy, during study hours, to school work.*

THIRD.—*To cultivate a teachable spirit and cheerfully acquiesce in all the regulations and requirements of the School.*

THE KIND OF STUDENTS WE DO NOT WANT.

FIRST.—*Those who come here to spend their money and idle away their time.*

SECOND.—*Those who have "fast" habits and who come here simply because they cannot bear the restraints of home.*

THIRD.—*Those who are unwilling to practice the self-denial necessary for their own improvement, and for the general good of the school.*

GENERAL REMARKS.

If those desiring to enter the School are not prepared to make any sacrifices to make study the first and only aim while here, to work diligently and faithfully, to be honest in all things, they should go anywhere but to a Normal School.

The Normal School is intended to be a self-governing institution. The persons to whom it offers decided advantages, must of necessity be those who will understand what is requisite, in order that the largest return may be received by them for their outlay of time and money. If any, through inadvertency, give evidence that they have mistaken their calling in this respect, there will be no hesitancy in granting them a perpetual furlough.

Parents and guardians are earnestly reminded that under the most favorable circumstances, students who beard out of the building cannot make as satisfactory progress as those who are under the immediate supervision of the school authorities.

TRAINING SCHOOL.

The Training School consists of pupils from six to sixteen years of age. The school is divided into ten grades of from ten to twenty pupils in each grade.

The design of the Training School is to give our students an opportunity to put into practice the theory and methods of instruction received in the course of professional work.

Students do their teaching under the constant direction of the Principal of the Training Department, and a single term of such practice will do more for a student teacher than years of school-room work without advice and criticism.

The student teacher is given a class, which he holds a period of a few weeks in one branch, and thus in the twenty-one weeks, by change of programme, he is enabled to have advice in teaching in the different grades, all the Common School studies.

Once each week the class meet to hear criticisms on the work of the teachers, that all may profit thereby.

The methods, the language, power of securing and holding attention, discipline, manner, teaching power are noted and errors criticised.

Earnest effort is made to impress the fact that a poor disciplinarian cannot succeed in the school room, and every principle relating to discipline is seriously and carefully discussed. During the year there are senior class exhibitions of teaching, after which each student has an opportunity to make criticisms, or ask advice.

Every student is required to make a careful preparation for each recitation including both matter and method, and every Monday a plan of the week's work is handed to the Principal who observes if the plan be correct, and is carried out. Several of these plans are printed each week in the county paper giving to the public an idea of what the student teachers are doing.

The following are plans selected from those handed in during the year:

DEPARTMENT OF MUSIC.

I. G. HOYT, DIRECTOR.

Among the many who undertake the acquirement of a musical education very few, comparatively, attain a high degree of proficiency, except graduates from the conservatories of our large cities. Some of the many causes to be assigned for this fact are to be found in the indifference and incompetency of teachers, who, themselves have been led astray by wrong methods of instruction and who are doing in an erroneous and superficial manner the work which ought only to be done by those qualified for their profession by a legitimate and thoroughly systematic course of instruction.

The object of this department of the school is to furnish a solid musical education in all its branches.

THE COURSE OF INSTRUCTION

Is identical with that of the largest conservatories of America, and is divided into five grades, each grade being subdivided into three divisions. The music comprised in the course is classified according to the divisions of the grades, beginning at the simplest and extending to the most difficult, and includes the Piano-forte works of the ancient and modern classic composers.

RATES OF TUITION.

No deduction will be made for temporary absence from lessons. Those who are withdrawn from the school before the close of the term—unless compelled to leave on account of protracted illness—will be charged the full amount of tuition for the term of fourteen weeks.

Those who complete the required course of studies in any branch, and pass a satisfactory examination in the same, are awarded a diploma, in which will be named the studies completed, and by which they will be constituted graduates, and will be entitled to receive the degree: Bachelor of Music.
